Mr. C. E. Clark
Environmental Protection Agency
2200 Churchill Road
Springfield, Illinois 62706

Dear Mr. Clark:

Your letter of April 19, 1973 has been received and necessary actions to correct the situation as pointed out have been instituted.

We were at a distinct disadvantage to keep up with providing cover because of the extremely heavy amounts of rainfall and flooding that has plagued us during the past few weeks. We realize the situation was exceptional and we have at present taken steps to overcome these problems as outlined in your letter.

Currently, we have additional men hauling and piling cover material to keep ahead of our daily cover requirements and also provide cover material for redressing areas that may have been diluted by the rain.

We appreciate your inspection letter and your consideration and cooperation in overcoming these conditions under such adverse weather situations. We trust our remedial action will merit your approval. Thank you.

Yours truly,

Thomas N. Tibstra
